DATA SCIENTIST

I am a 4th-year math student who **actively looking for opportunities** to use my knowledge of machine learning to solve actual-world issues. I am a committed machine learning student with a solid background in mathematics, specifically **analysis and statistics**. I'm eager to add my expertise to a team that is dedicated to producing significant outcomes and shares my love for machine learning.

TECHNICAL SKILLS

Languages	: Sql, Python, HTML, CSS
Libraries	: Pandas, Numpy, Matplotlib, Scikit-Learn, Tensorflow, Django
Dev Tools	: Visual Studio Code
Software	: Excel, Matlab, Mathematica, Docker

EXPERIENCE

Research Assistant <i>Nazarbayev University</i>	August 2022 – Present <i>Astana, Kazakhstan</i>
<ul style="list-style-type: none">Studied fractional calculus to investigate the open problem connected with geometric meaning and applications of fractional derivatives. Worked with Python, Numpy, Matlab to calculate and do simulations of fractional derivativesAnalysed Inverse Problem in different media. Applied and tested Matlab code to do complex calculations	

EDUCATION

Nazarbayev University <i>Bachelor of Science in Mathematics</i>	August 2020 – Present <i>Astana, Kazakhstan</i>
---	--

EXTRACURRICULAR EXPERIENCE

Math Olympiad <i>Nazarbayev University</i>	May 2022 <i>Astana, Kazakhstan</i>
<ul style="list-style-type: none">Took a 3rd place among 25 participants in mathematics Olympiad held by Piotr Skrzypacz and SIAM student club
